

RUBY ON RAILS - FULL STACK DEVELOPER

Exciting new StartUp Role

- Dynamic and fast paced working environment
- Vibrant, agile and highly skilled team
- Free barista coffee..... !!

One of Australia's most innovative media and digital start-ups is looking for a new Ruby on Rails developer.

One Big Switch is a consumer network with 800,000+ members in Australia, Ireland and the UK. OBS is backed by some of Australia's leading entrepreneurs and media companies.

One Big Switch is looking for a Ruby on Rails - full stack developer. You will work closely with our team to help deliver technology requirements for people power campaigns that are featured prominently in the media.

Key Qualities

- Team player
- Proactive
- Detail driven
- Positive attitude
- Strong written and verbal communication skills

Key Requirements

- 2+ years commercial full stack development experience utilising Ruby and the Ruby on Rails framework.
- Experience utilising HTML5, CSS3 and associated responsive frameworks.
- Experience with JS and associated libraries.
- Utilised various testing frameworks including Test Unit or Rspec. Ideally, you are currently working within a TDD environment.
- Previous experience within an agile environment deploying to AWS or similar.

Key Competencies

TIME / PROJECT MANAGEMENT

- Work to meet project timelines as set by the development team lead and digital director.

STAKEHOLDER MANAGEMENT

- Good stakeholder management as you will need to be able to project manage multiple jobs across various departments to meet critical campaign deadlines.

To apply, please attach a copy of your CV and brief cover letter detailing your suitability for the role to jobs@onebigswitch.com.au
